DECLARATION OF CONFORMITY
HEALTH CERTIFICATION

The company **PANARITIS** hereby certify:

that the **GYROS MACHINE RG60** that we are going to send on September to "U.T.R. SOLUNAC GYROS I ZACINI TOP", 6 item in total, is manufactured with stainless steel adequate for use in catering, meeting European Union and National food legislation requirements.

According to EN 1935/2004 the materials that come in contact with food should not emit any substances to it that can harm the end consumer.

The metal parts of our appliances that comes in contact with the food cooked is made of AISI 304 stainless steel.

The parts that do not come in contact with food are made of AISI 430 stainless steel. Both materials though are food safe since their chemical composition comply with our National code for food and drink and European law which can be downloaded from the formal internet site of the National General Chemical Lab (www.gcsf.gr).

In article 22 for stainless steel we have the following table for maximum allowable element prices for food contact.

We also provide you the chemical constitution of our materials given by our stainless steel provider. None of the above materials overcomes the above prices. Therefore we declare that our products are safe for use to come in contact with food.

Tantalum (Ta), Niobium (Nb), Zirconium (Zr)	≤ 1,0%
Molybdenum (Mo), Titanium (Ti), Aluminium (Al), Copper (Cu)	≤ 4,0%
Lead (Pb)	≤ 0,5%
Cadmium (Cd)	≤ 0,05%
Arsenic (As)	≤ 0,05%
